AUGUST 2025 Technology & Furniture Products for Education

ACP Direct is the sole source vendor for Labsonic® products. For 22 years, we have worked directly with states, major testing consortiums, and K12 technology personnel to design headphones and headsets for testing and other instructional technology requirements. Labsonic® headphones and headsets are made with top-grade components & are professionally manufactured. Persistent attention to design details and strict quality control procedures during production ensures the durability required for heavy use in classroom and testing environments. We provide industry-leading warranties and customer service to back this up. Order these widely accepted Labsonic models for your schools. You will not be disappointed.

LABSONIC® A Sound Value - A Sound Choice.™

LS275 - Big Sound without the Big Headband!™

LS275 Stereo Headphone with In-Line Volume Control

The LS275 model is our new mid-sized stereo headphone design for student use in schools. This popular ergonomic design is comfortable and attractive and produces high sound quality considering the attractive price point. Labsonic is known for the highest quality, best warranty, and economically priced headphones & headsets in K-12

education.

LABSONIC® A Sound Value - A Sound Choice.™

LS3000 Heavy Duty Switchable Stereo/Mono **Headphone with Independent Volume Controls**

As low as **\$9.95**

Versatile and tough, triple shielded straight/coiled/straight cord design is 4.5ft unextended for a good length for tablets and laptops, but will extend to 8.5ft for reaching the back of computers or language lab iackboxes.

The significant advantage of these headphones is their ability to switch to monaural (commonly used in English Language Learning / English Language Development, language labs, and speech pathology applications) and switch back to stereo for other educational multimedia programs and music.

3 YEAR Adjustable headband to fit the full K-12 age range

Noise-reducing earcup designed to lower ambient noise so volume does not need to be as high, as recommended by audiologists.

to sanitize

Design: Full Size, Over-ear Speaker Driver: 40mm

Ear Cushions: Premium Leatherette Cord: 4.5 to 8.5 feet, triple-shielded Plug: 3.5mm Stereo Audio, Nickel Plated Volume Control: Independent on each ear cup

Warranty: 3 Year

Utilize the Stereo/Mono switch to switch into high concentration monaural listening for audio books or spoken-word material.

Each earcup features an independent volume control, allowing for right or left-ear concentrated listening.

Headsets on this page were designed for use in schools that want or need to use their headset's microphone with multiple types of device inputs. These headset models **utilize adapters**, so you can use the same headset with both dual-plug (such as PCs with sound cards) and single-plug (such as tablets, Chromebooks and laptops, etc.)

Need a headset for both mobile devices and computer labs? Get these popular single-plug headsets bundled with your choice of A12P adapter to convert them to a dual-plug where separate headphone and mic jacks are required (such as desktop PCs, tape recorders, etc). Remove the adapter to use the single jack on devices such as tablets, Chromebooks, and other mobile devices.

Single Plug Headsets + Dual Plug Adapter

Whiteboard for Interactive Projectors

Projection surface designed for your interactive projector

- · This board is manufactured specifically for interactive projector use with a flatness guarantee of <2mm across the board surface to comply with your projector's flatness requirements
- · Available in Projection Matte Gray to minimize the projector's glare (i.e. "hotspots")
- · Also available in Gloss White Engineered to minimize visual strain from anywhere in the room, making it ideal for spaces exposed to ambient light
- · Easy to clean, unlike most other brand's "projection ready" surfaces

These carts are a good choice for schools that deploy a mixed fleet of Laptops, Chromebooks, iPads and other tablets.

- Large 1.75"W x 16"D x 12"H slots easily accomodate the majority of devices used in education today, including laptops and tablets with thick protective cases. Slot dividers are rubber-coated to prevent scratching devices
- · Each slot has a cable route cutout to prevent charging cords from falling back behind when unplugged
- · All steel construction and ventilated on all four sides allowing air to circulate freely through the unit
- · Heavy duty locking system on front and rear access doors includes a traditional lock and key system and set of two keys
- · Full-size locking rear door for access to power strips and plenty of room for cable management
- · Cart ships assembled, just attach the handle and casters after unpacking

24 Slot Tablet/ Chromebook

- · Front and locking rear doors to secure devices while charging or in transit
- · Slender footprint allows for easy transport and storage in crowded classrooms and media centers
- Includes two 12-outlet power strips with integrated shelving to hold those pesky power bricks
- Two 10' cords, with cordwinder
- Four 4" casters (2 locking)

Slot Dimensions: 1"W x 15.2"D x 10.6"H

Overall Dimensions: 17.125"W x 25"D x 37.6"H

Power strip outlets are spaced apart to accomodate odd-shaped power adapters

Item# Price 721916 \$845

30 Slot USB-C Chromebook/Tablet Charging Cart

- · Eliminate pesky power bricks and power strips with this USB-C charging cart (USB-C cables sold seperately, or use
- Front-mounted USB-C outlets with indicator light for easy access to power (one outlet per charging slot)
- 45-watts per port of power delivery
- Divider fins feature built-in cable guides to keep cables next to each slot for cleaner organization
- · Dual fans and ventilated sides for cooling air flow
- Lockable front door and side panel
- 6' cord with integrated cord wrap
- Push handle and 4" swivel casters (2 locking) for easy mobility
- · cULus-listed electrical components

Front-mounted USB-C outlets with indicator light for easy access to power (one outlet per charging slot)

Oodle Stool Smith System

Sit flat or sit with movement on the very same stool. Three-cylinder shaped components, 17 inches in diameter and stack 18.5" high. Simply flipping a separate floor facing disk insert students can sit still on the insert flat side or enjoy 10 degrees of multidirectional rocking motion on the insert convex side. To add to the feeling of stability for the student, the rocking base features a stop at the perimeter of the stool base which signals the student that they've rocked as far as they are able.

Each Oodle stool comes with 3 body-discs that twist-lock securely together for different heights.

12.5"

Flip the movement disc over to the rounded side to allow a safe wobble of 10 degrees in all directions

The movement disc attaches to the bottom and

Shipping Information

All orders are either shipped from our warehouse in Texas or directly from the manufacturer's facilities. We use UPS for small parcels and some of the nation's largest, most reliable motor freight carriers for truck shipments. Delivery charges are not included in the item price. See info below. We continuously negotiate the best price contracts to keep these costs to a minimum.

Standard Small Parcel Tiered Shipping Rates

Smaller lighter weight items are generally shipped via UPS. These products will have the shipping charges calculated based on your order subtotal. You may use the chart below to calculate the shipping charges. Our website's cart also calculates rates based on this chart.

Order Amount	Rates
\$0-\$49.99	\$9.95
\$50-\$99.99	\$12.95
\$100-\$199.99	\$16.95
\$200-\$499.99	\$20.95
\$500+	\$7% of order

Use this chart for all nonfurniture items in this catalog.

Freight Carrier Shipping Rates for Furniture Items

All of our furniture items (Think: tables, chairs, desks, carts, cabinets, boards, etc) are shipped using motor freight carriers (aka Truck). These freight charges can be quoted in advance by phone, fax, email or our online form at **www.acpdirect.com/shipping**

Our commitment is a 4 hour turnaround for less than truckload quotes. For truckload or multiple truckloads 48 hours is standard.

Tailgate Delivery is the most economical method. The driver is responsible to bring the freight to the back of the truck. You must have personnel available to unload from the back of the truck's tailgate into your facility. If you have a loading dock this always the best way.

Liftgate Delivery is a recommended add-on service for facilities that do not have a loading dock. For larger and heavier items it is sometimes required to *safely* lower products to ground level.

Liftgate + Inside Delivery is another add-on service that is available. Driver will deliver to first floor just inside front door. (No stairs) **Note**: Even with Inside Delivery, the driver

Note: Even with Inside Delivery, the driver may need assistance if items are too heavy or oversized for the driver to handle safely on their own.

When Your Shipment Arrives

Please inspect your boxes for obvious damage and notate this on the drivers delivery receipt. Contact us immediately after you discover the shipment has arrived damaged or short. Damages or shortages need to reported to us within 48 hours of receipt. We also recommend digital pictures be taken as they are requested often by the carriers. Pictures will expedite the replacement. We are fully committed to your satisfaction but will need your assistance in these matters.

Ordering Information

Purchase Orders:

Purchase orders are accepted on Net 30 terms for all government, public schools, universities, and other established educational institutions. All credit cards accepted.

Federal Tax ID# 75-2986112

Printed catalog pricing cannot be guaranteed due to supply chain volatility.
